Introduction

Duplex Supply Inc. are the Ace suppliers of Stainless Steel 304 tube fittings over the past decapod. We are one of the major brands in steel industry. Duplex Supply Inc. specializes in various forms of duplex, super alloys, stainless in form of tube, pipe, plate, flanges, sheets, valves etc. Duplex Supply Inc. are the most cultivated and out-breaking makers of nickel based alloys. We go with the saying “Customer is king” thus we make our Clients buying feel worthy and remarkable. We present customers in various countries for all size demand. The main Ambition of the firm is to provide commodities of matchless Quality because we strongly believe in Consumer Satisfaction. In Today’s Market industries have become very low quality suppliers which creates Hollow in what Steel Industry needs. Due to such Junctures it results in decline of Quality Goods. But today our firm is one of the finest Organization in Industry, Which makes us Isolated in such a Competitive Industry. Our Product Durability and Dependability has made us one of the best brands. Because of such service our clients put forward us to other prospectors which is more than enough to prove our alterity in alloy industry. We are known to the true essence of industry which makes us sound efficient for calibrating precise needs and demands of our customers. Stainless steel 304 Tube fittings are one of our highest ranking products in terms of quality and durability. We are a perfect for giving a tremendous scope of materials, from our stock, to suit your necessities from various Industries. Stainless steel 304 tube fittings are one of the fastest selling product. From exceedingly specific non-standard material to off the rack products, from low essentials to factory runs, Duplex Supply Inc. has the experience to understand your most heavy requirements. We have always kept our Vision clear which serves best in accomplishing our mission. We rectify the changes required in industry with changing time and keep getting Major Control over the quality of our product. With the changing period of time we have always progressed day by day and our product quality has always remain finest. Our product have such impact on our customers that it brings us new customers as well but the clients who once purchased from us always revert back to us for their purchases.

Product

Stainless steel 304 Tube fittings are used to accommodate a leak free acquaintance between tubes for a seamless flow of liquids and gases. The most ordinary types of tube fittings manufactured by us are various types of Stainless steel, Monel, Inconel, Hastelloy fittings which are used for their corrosion resistance and provide inventive finishes. The tube is designed to withstand. Stainless steel 304 Tube Fittings are also designed to have a high vacuum which is the maximum vacuum pressure that can be created in the tube. Tubes can be conjoined to tube fitting by bulging the ferrule to the nuts and tubes. Stainless steel 304 Tube fittings are used in tube systems to conjoin straight pipe or tubing sections. The main use of fitting is to make the pipe or the tube adaptable to different sizes or shapes. Stainless steel 304 Tube Fittings are also used for calibrating the liquid flow. The term plumbing is generally used to describe conveyance of water, gas, or liquid waste in ordinary domestic or commercial environments, whereas piping is often used to describe jazzed up conveyance of fluids in functional applications. The term tubing is sometimes used for lighter-weight piping, especially kinds that are flexible enough to be supplied in coiled form. The principal companies in which there is application of stainless steel 304 tube fittings are Automotive, Shipbuilding/Marine, Railway, and Aerospace. These Tubes are majorly used in industries for their scrupulous and rigorous work. These are most commonly used in the oil and gas, pulp & paper, petro-chemical/chemical processing, research laboratories, aerospace and defense, chemical processing, power generation, cryogenic and semiconductor, shipbuilding and heavy industrial industries. It is worth asserting that all steel types exposed to water and oxygen will corrode. International standard stated that if less than 0.1 mm of the surface of a Stainless steel 304 tube fittings are not corroded in a year, then it is sturdy and can be accepted as chosen quality for the application. It is important to know which fitting should be used in which application. There are kinds of variations in application of use of Stainless steel 304 tube fittings.

Applications of Stainless steel 304 tube fittings that we accommodate at Duplex Supply Inc. are:

1. Hydraulic Application- Hydraulic Applications Comprises alteration of liquid fluids such as water and other chemical solvents. They have seals which prevents leakage of liquid and frequently be rust resistant and other chemical corrosion.
2. Pneumatics-They Involve alteration of gases. They have tight seals which prevents gas leakages and are resistant to chemical corrosion.
3. Instrumentations- They are Strongly Physically Instrumented and do not require much sealing.
4. Calibration- This comprises of sequence-fully altered which is also not leak proof or spill proof sealed.
5. Oil & gas- Oil & Gas Application comprises of highly rust resistant and chemical corrosion seals which prevents leakages of oil & Gas.

Materials

Application of Stainless steel 304:

- Saucepans
- Cutlery & Flatware
- Architectural paneling
- Sanitary ware & troughs
- Saucepans
- tubing's
- Dairy food and Pharmaceutical production equipment
- Springs, nuts, bolts and screws

Stainless steel 304 is supplied in forms of Strip, tube, Quarto Plate, Sheet, bar, pipe and plate. This material is further used to create product i.e. stainless steel 304 tube fittings.

Quality

Duplex Supply Inc. strongly has characteristic Quality control over all our products and our esoteric work quality and product quality makes us one of the top manufacturers in Industry. We provide Best Quality Stainless steel 304 Tube fittings. Quality is our peak concern. We sustain high Quality Standards through our Committed Personnel and Sound Infrastructure. Not even a single fitting is left without a 3 layer inspection of chemical test, mechanical test, visual inspection, dimension inspection, pressure test, gauge test and conformity to the order. Quality Assurance System is beacons by Axioms that support our work culture which hooks in respect, self-administration, imaginative-ness and self-articulation. Duplex Supply Inc. is backed by all the possible certifications of a world class mill including ISO 9001:2008, ISO 14001:2007, OHSAS 18001: 2004 & CE-PED 97/23/EC. We are also members of various renowned agencies and Chambers of Commerce including MASSMA, EEPC, FICCI, FIEO, Indian Merchants Chamber etc.

We are Highly Concerned about our customer's expectations.

We are delighted to be saturated with loads of order 50 days schedule ahead of time. Every single piece of our product is attached with test certificates and authentication certificate of our Quality Product. Day by Day we keep moving to improve Quality of our products for our client. We also welcome any third party inspection from an agency nominated by the customer to comply with NACE 3.2 Certification if required by customer at an extra costs satisfaction. Our Quality Management systems and work plans ensures pursuance of total Quality Management .We never compromise in terms of Quality of Stainless steel 304 Tube fittings and also for our other products. We follow stringent Quality Norms and ethics by monitoring each production process which leads in supreme product quality. With years of experience in manufacturing we offer High Quality, Lower cost and Best service. Quality Assurance begins with understanding Customer's needs and is continued till the customer is completely convinced with the delivery of products and services. Stainless steel 304 Tube fittings is one of the rough and tough product due to its great quality. We efficiently fulfil customer's needs in terms of Cost, Quality and Delivery.

We Strain To always act with probity and Honesty.

We Aim To be Paramount in our Industry.

We do our absolute best to esteem our commitments.

Why Clients Choose us ?

Our clients have their trust in us and our Products because Duplex Supply Inc. is the most popular vendor of Stainless steel 304 Tube fittings. We uniformly export our products to all the 5 continents in the world. Stainless steel 304 Tube fittings are supplied majorly in Middle Eastern countries. Our all products are of marvelous quality. We have always followed saying of "Customer is king" for us and their satisfaction is what we aim for. Product replacement warranty is given. Our products can sustain high pressure. As of 2015, we stocked 500 tons of Stainless steel 304 Tube fittings, highest in the country. With Duplex Supply Inc. you get un-comparable buying experience of products made from best raw materials. We execute both small and bulk orders. Every 4 months a 3rd party inspection is conducted.

Customer is king

Duplex supply Inc. furnishes MTC with EN10204 NACE 3.1, NACE 3.2 specifications. All clients are provided with a copy of the same. Duplex Supply Inc. have the distributor in more than 15 countries. With ISO 9001:2008, ISO 14001:2004, OHSAS 18001:2007 certificate We are majestic manufacturer and exporter of Stainless steel 304 Tube fittings. Duplex Supply Inc. has emerged to become the most trusted company in several European, African and gulf based companies.

No compromises are made even when it comes to the packing of our products for sea as well as air transport. Also, the raw material taken for manufacturing is of the highest grade. Our specialized logistic team focuses on delivering the first model, which provides for instant dispatch against the receipt of bank transfer copy. At competitive pricing, Duplex Supply Inc. has become the ultimate destination of Stainless steel 304 Tube fittings buyers Duplex Supply Inc. is looking forward to providing you with your specialty metal needs. Also the Customization we do on personal demand of customers gets us client satisfaction and our high quality products with flexible pricing makes us admired by our clients our clients feel delighted in buying our products and consumer satisfaction in itself is the biggest achievement for our firm.

Production

Each year, millions and tons of Stainless steel 304 tube fittings are produced. Its versatility makes it the most often used product. Stainless steel 304 tube fittings are found in a variety of places. Since they are very substantial in industrial work everywhere. The Production Process of Stainless steel 304 tube fittings are divided into 3 parts which are BODY, NUTS AND FERRULE.

- i. **Body:** As per design standard the body is made from hex or round bar which is subject to heat treatment depending on the stature of the bar. Followed by that, the body is machined depending on the thread required by customer.
- ii. **Nuts:** Nuts are made in a fairly simple process by a machining of hex bar as per size and thread from a standardized design.
- iii. **Ferrule:** Ferrules are the heart of the Stainless steel 304 tube fittings. Our specialization lies in the manufacture of an innovative method that makes the ferrules compatible with other manufacturer designs and increases the life of the fitting.

Our production range also comprises of instrumentation valves, condensate pots, snubber, manifolds, and custom designed valves. Fittings can be made in NPT, BSPT & BSPP Threads. Our production amplitude at apex in a 3 shift schedule is 1.3 million pieces of amassed units per month. Over and above to that we have in house testing facilities like spectra machine, PMI Machine, Mechanical test, Hardness Test, Ultrasonic Testing, Hydrostatic Testing, Pressure testing, and manual inspection of gauge. We take appropriate consternation that there are no errors and bungles caused in our production process because efficient production process is foremost for enrooting goods. Our state of the art factory has 21 CNC Machines, 12 Lathe Machines, 3 Heavy Punch Machines, and 5 Dye Machines for an end to end process at one place. Our Production process has very creamy operating system which maintains proper co-ordination of work.

Packaging & Documentation

Duplex Supply Inc. provide the certificate of origin legalized/attested by the chamber. Also, a commercial invoice including HS code is provided. Our product packing lists which come with the product includes a number of boxes, net weight, and gross weight. We provide test certificate certifying NACE MRO103, NACE MR0175 during the delivery of Stainless steel 304 Tube Fittings to our customers, Along with this, a raw material test report is provided as well. Our laboratory reports that are NABL approved also is provided to our loyal customers. Other reports like raw material reports, heat treatment charts and letter of guarantee is also provided by Duplex Supply Inc. Packaging of Stainless steel 304 Tube fittings are done in such a way that there is no damage caused to the product during time of delivery. We provide a free sample kit for all clients against purchase order copy for quality approval free of cost. Request your free sample kit now and get your personalized orders at tip of your We offer price basis depending on your requirements. It can be based on previous works, FOB Nhava sheva, CFR, CIF, CPT your destination port or your door to door delivery duty which can be paid or unpaid finger by ordering it online.

About Duplex Supply Inc.

Duplex Supply Inc. is a privately held stockiest supplier and manufacturer of various alloy and metal products, the head office is located in Mumbai. DSI is committed to provide merit quality serviceability to all its customers with the minimal lead time.

Duplex supply Inc. provides shipping for all over global Customers. DSI has made noteworthy impact in metal Industry. With Duplex Supply Inc. you get un-comparable buying experience of products made from best raw materials. Duplex Supply Inc. has emerged to become the most trusted company in Indian market and in several European, African and gulf based companies. Duplex Supply Inc. is backed by all the possible certifications of a world class mill including ISO 9001:2008, ISO 14001:2007, OHSAS 18001: 2004 & CE-PED 97/23/EC.

“Your wish we Accomplish, You Demand we Deliver”

OUR MISSION

Our Aim is At Business Excellence through Higher business ethics and standards, Optimum use of resources, Spirit of Entrepreneurship.

OUR PRECISION

We are very Accurate from our Production System to our Delivery System we handle all our goods very precisely. We precisely fulfill all our promises to the clients and make sure that they have no complaints regarding our products.

OUR VISION

To provide best Quality products and service to our Clients and fulfilling their demands beyond their expectations and to be globally esteemed organization.
